

BIKE THE EARTH

"Life is like riding a bicycle -
in order to keep your balance - you must keep moving."

Albert Einstein

*"In Kenia I worked on sand-dams,
in Suriname on soil fertility management
in Central Asia on sustainable household
technologies. All these countries I explored by
bike as well and realized how cycling and
inspiring people could go together"*

Fedde Jorritsma worked 4 years as trainer for
WECF in Central Asia on practical solutions for
sustainable living including ecological
sanitation, solar collectors, solar dryers,
drilling wells and hand-pumps.

The organization 'Bike the Earth' is initiated
by Chris Le Breton who facilitated many
environmental projects around the world. In July
2010 a small group of enthusiastic people started
to cycle in New Zealand.

On the way to Europe they offer practical
solutions for sustainable living and provide
inspiring workshops. They share their knowledge
& skills in transition-towns, eco-villages and
environmental organizations.

Do you want to become cyclists,
trainer and partner?
