

Protect children – phase out chemicals of concern in toys

Too many toys still contain hazardous chemicals like PAH, formaldehyde, lead, phthalates, cadmium etc. WECF calls for toxic free toys in the EU. How can the Toys Safety Directive be improved?

Come and bring your toys for testing!

Wednesday, 25th of January 2012

15:00-17:00

Room A7F387, European Parliament, 60 rue Wiertz, Bruxelles

To attend the EP registration is obligatory. Please register at celia.fontaine@europarl.europa.eu, giving your name, date of birth, the number of the identification card you intend to bring to enter the Parliament, and your city of residence.

With the participation of:

Michèle Rivasi, Member of European Parliament, Member of ITRE Commission

Wolfgang Döring, Biologist, Label Spiel Gut

Anne Barre, President of WECF France
