

Working for a Healthy Environment for all

Women in Europe for a Common Future | **WECF**

Women in Europe for a Common Future's (WECF) vision is a world in which gender equality has been achieved and all women, men and children live in dignity, and share responsibilities for a healthy environment, and a just and sustainable world.

WECF is an international network of over 150 women's and civil society organisations implementing projects in 50 countries and advocating globally to shape a just and sustainable world; our Common Future.

We strive for balancing the environment, health and economy, taking the different needs and perspectives of women and men into account. We enable women and men to participate at local and global levels in policy processes for sustainable development. Our network's activities are based on our partners' own visions and needs. WECF implements solutions locally and influences policy internationally.

WECF's Munich Office is currently offering two educational internships in a professional and inspiring environment.

1) Communications Internship
